

Blue King

Comfort, sustainability and efficiency combined in one spray gun

Powerful cleaning with less water

AKMN011-B

AKMNP11-B

The Blue King is a superior cleaning gun with many special qualities.

With its compact size and ergonomic handle, it fits comfortably in the hand. The velvety soft rubber surface adds further comfort.

The spray pattern of the Blue King is unsurpassed. Due to be exactly positioned nozzle tip, there is a very equal distribution of water, wherein with the trigger the shape of the jet can be changed easily from a wide cone to a narrow point. A precise adjustment of spray pattern and trigger position is possible with the set screw at the rear. With the out folding clip that can be done quickly and without any tools.

The nozzle has the revolutionary flat design from AKBO so that dripping is prevented during spraying, even with the use of the widest jet. In addition, the orifice is dimensioned such that the gun uses at least 16% less water than a regular cleaning gun.
